

## Ultrapac<sup>®</sup> Renovate (A217)

Powerful hard surface cleaner for heavy-duty fire and restoration cleaning

FOR PROFESSIONAL USE ONLY

**Superior performance on heavy soils • Suitable for fire & water damage cleaning**

### DESCRIPTION

Prochem's Ultrapac Renovate is a powerful, highly concentrated cleaner that removes tough, deeply embedded greasy soils and smoke residues. Use on painted or unpainted surfaces, drywall, metals, some carpets, and other water-cleanable surfaces. Contains no solvents, which can damage some sensitive surfaces. Rinses out easily and leaves no streaks or blotches.

### FEATURES

- Highly concentrated, powerful cleaner for fire and smoke restoration
- Removes greasy soils and smoke residues
- Penetrates and removes soils from smooth and porous surfaces
- Rinses freely without streaks and blotches
- Contains no caustic or solvents

### WHERE TO USE

**Disaster restoration:** Deep cleaning, non-streaking for fast and effective cleaning on fire and smoke damage restoration.

**Hard surface cleaning:** Excellent cleaner for routine or heavy-duty cleaning on most hard surfaces. Removes tough soils and charged carbon particles left by smoke, soot and air currents.

**Walls, flat paint:** Wall cleaner for routine or salvage cleaning on walls. Helps eliminate blotchy results often seen on flat paint.

**Sealed wood furniture:** Reduces need for specialty wood cleaners on sealed, water-cleanable wood.

**Pressure washing:** Quickly removes oily and carbon particulate soils.

**Fire restoration carpet cleaning and filtration soil removal:** Removes soot and filtration soil from carpet in salvage situations. See tips below.

### USE DIRECTIONS

**Pretest:** Pretest in an inconspicuous location. Not recommended for use on stain-resistant carpet, most fabrics, unsealed wood, aluminum, or other delicate or water-sensitive surfaces.

#### Mixing:

**Normal soil:** Mix 1 ounce per gallon of warm water (1:128).

**Heavy soil, restoration cleaning:** Mix up to 6 ounces per gallon of warm water (up to 1:21).

**Cleaning:** Spray or wipe onto surface, scrub if needed, rinse with clear water. Allow 2–5 minutes dwell time before rinsing for additional soil removal.

**Pressure washing:** Dilute 1:4, meter through pressure washer injection system.

**Fire restoration carpet cleaning and filtration soil removal:** CAUTION: Removes stain-resist coating from stain-resistant nylon carpets; use ONLY for disaster restoration carpet cleaning. Mix 6 oz. per gallon, pre-spray, and extract. To restore stain-resistance after restorative cleaning, apply Prochem FourGuard Carpet Protector according to label directions.

#### Tip:

To create a powerful ceiling cleaner, combine Renovate with Prochem's Oxy Plus. Mix 3 oz. Ultrapac Renovate and 1 oz, Oxy Plus per gallon of warm water.
